## BERTHET Alain

14 Mars 1994

Web developer

Digital project manager (junior)

## Profil

I spent the last three years to realize various projects in the field of Web. I acquired the capacity to bring to a successful conclusion a project from its conception to its sustainability.

During my experiences with two international companies, I was able to perfect my expertise in Web Applications and in team communications.

I wish from now on to take advantage of my experiences and of my know-how in new projects.
